Wyoming, May, 2021 -

Campbell County Health (CCH) has announced a partnership with Unidine Corporation, the leading provider of food and dining management services. Unidine's proven record of success in rural and community healthcare settings will help CCH increase patient satisfaction scores and improve employee retention, two elements of its strategic plan.

Located in Gillette, Wyoming, CCH is made up of an acute care community hospital and a long-term care center, as well as a surgery center and nearly 20 clinics. This highly regarded community healthcare system is on a journey toward Excellence Every Day, serving the people of the Powder River Basin with dedication, skill and compassion. CCH will be Unidine's flagship partnership in the state.

Unidine's relationships with supply chain partners will ensure that the healthcare system can steward resources wisely. And as a forward-looking organization, CCH plans to leverage Unidine's specialized expertise within the healthcare field to bring its dining program to the next level. Meals prepared from scratch with whole, fresh ingredients and a focus on health, wellness and sustainability will help CCH patients feel at home. A massive renovation to the hospital's retail space will enhance the dining experience for employees and visitors. And the integration of innovative new technologies will automate processes and improve efficiencies.
